

FLEXIMAKE SUPER HEAVY-DUTY 680GSM PVC TARP

Black Ripstop, Webbing-Reinforced Edges

KEY FEATURES

Super Heavy-Duty 680GSM PVC Construction - Premium-grade material for extreme durability

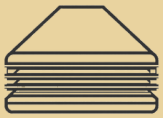

100% Waterproof PVC Coating Complete protection against rain and moisture

Stainless Steel Eyelets (12mm Ø @ 1m Intervals)

UV-stabilised for harsh outdoor sun and long-lasting durability

HF-welded, webbing-reinforced PVC edges for superior strength.

1000D Ripstop Fabric (23×23, 20mm Grid) - High tear strength and flexibility.

Fast Nationwide Delivery

Wide Range of Sizes

Exceptional Customer Service

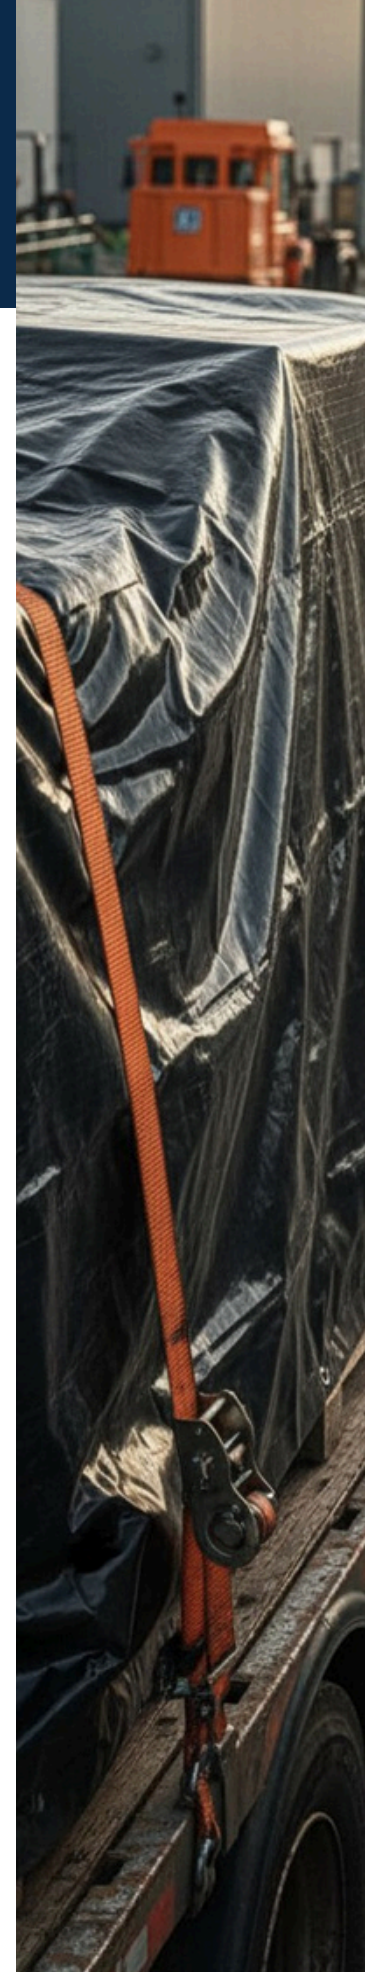

KEY BENEFITS

- **Extreme Duty Performance**
Built for demanding transport, construction, and industrial use
- **Maximum Load Strength**
Reinforced webbing edges for high-stress durability
- **100% Waterproof Protection**
Keeps cargo fully protected in heavy rain and wet conditions
- **UV Resistant for Outdoor Use**
Designed to withstand harsh sun and long-term exposure
- **Heavy-Duty Stainless Steel Eyelets**
Strong, rust-resistant tie-down points for secure fastening
- **Long Service Life & Cost Efficiency**
Premium PVC construction reduces replacement frequency
